Sinatra Desert TV Film Complete

Frank Sinatra's big "desert spectacular" is apparently ready for its Sunday television presentation, despite delays fostered by inclement weather and the ill health of one of the production's stars. Filmed on a special stage set up on the desert off Rio Del Sol Road, the Sinatra show was drummed off the scene by intermittent rains which, incidentally, caused an estimated \$100,000 loss in time.

PLANTS, ANIMALS TO BE PROTECTED

(EDITOR'S NOTE: A campaign to create a San Jacinto-Santa Rosa Nature Reserve, which has been often discussed by Desert area nature lovers, is being instituted by the Desert Protective Council. In the following summary, Harry C. James, executive director of the Desert Protective Council, explains the proposal of the organization. The Desert Sun will continue to apprise Desert residents of the progress of this campaign.)

By HARRY C. JAMES
The establishing of a reserve for the protection of the native plants and animals of a given definite area is a concept new to California. The Desert Protective Council recently proposed just such a nature reserve for a sizeable area in the San Jacinto-Santa Rosa mountains.

That the idea is an appealing one is evident from the widespread interest which it has aroused.

THE TERRITORY suggested for inclusion in this Nature Reserve extends from the San Geronimo Pass on the north to the Anza-Borrego Desert State Park boundary on the south. Scientists regard this as one of the most varied and interesting of regions. Unique among the mountain massifs of the world is the dramatic bulk of Mount San Jacinto, its northeastern escarpment rising from the desert floor, on its face all the life zones telescoped into a cross-section of the climates of North America — from the Lower Sonoran Zone at its foot, through the Upper Sonoran, Transition, Canadian, and Hudsonian zones, to the Arctic-Alpine Zone which surrounds its two-mile-high summit.

EXTENDING INTO the lower reaches of the Santa Rosa Mountains are the rugged canyons which are the range of the largest herd of desert bighorn sheep in California. The ocotillo, agave, mohave yucca, cactus, pinyon pine and juniper of these canyons are in spectacular contrast with the coniferous forests of the Canadian Zone and the contorted timberline trees — the lodgepole and

lumber pine — of the high country.

THE IDEA OF THIS Nature Reserve was first propounded at a meeting of the Desert Protective Council in July 1957, but it was not until March 16 of this year that the proposal was first made public at a special meeting of the council in Riverside.

In the intervening months the whole matter had been given thoughtful consideration by the organization's wildlife committee, now under the chairmanship of Lloyd P. Tevis, Jr., of Rancho Mirage and director of Caltech's Mobile Desert Laboratory.

The present committee synthesized the findings of an earlier Wildlife Committee under Dr. John D. Goodman of Redlands University, who resigned in order to spend a year in Africa on a Fulbright scholarship.

THE WILDLIFE COMMITTEE has always been composed of scientists eminent in their various fields. Such men as Dr. Walter P. Taylor, Dr. Raymond B. Cowles and Dr. Rodolfo Rubil were on the first committee. The present committee comprises Dr. Lyman Benson, department of Botany, Pomona College; Dr. E. Lendell Cockrum, department of zoology, University of Arizona; Dr. Carl L. Hubbs, Professor of Oceanography; Dr. Edmund C. Jaeger, Riverside Museum; Dr. George E. Lindsay, Natural History Museum, San Diego; Dr. Wilbur W. Mayhew, University of California at Riverside; and Dr. Ernest R. Tinkham of Indio.

The Council has every reason to feel that the Nature Reserve proposal could not have received more balanced consideration and study than it did at the hands of these men. By the time their summation reached the board of directors in the form of a report by Tevis little change was needed.

Burglary Suspect Is Still Sought

Identification Of Suspect, Slain Man Is Made Today

Law enforcement agencies throughout Southern California today pressed their search for the fleeing third suspect in Wednesday's abortive \$100,000 jewel and fur burglary attempt here.

The man, tentatively identified as Harry Lang, 38, 6-foot, 1½-inches tall and driving a white 1959 station-wagon — with shotgun and bullet holes in it — sped the car away from the Charles Becker residence as a police fusillade halted another suspect attempting to get to the waiting car. A third was captured at gunpoint as he attempted to escape through the rear door of the Becker home.

EXAMINATION OF the body of the dead suspect late yesterday indicated that he had been killed by a single shotgun wound and a single pistol shot as he ran from the yard of the Becker home carrying a milk stole and ermine wrap.

Today the dead man was identified as Gerald Melvin Stuller, 22, of New York.

Sgt. Richard Harries, interrogating the suspect who was taken into custody Wednesday night, learned that he had been booked on an alias when he gave police the name of William Sica. A fingerprint check has found that his real name is William John McMurtry, 22, of New York.

DET. LT. ROBERT WHITE said today that the local department plans to go into a thorough interrogation of McMurtry today, prior to his being taken to court for arraignment.

Police got the lead on McMurtry's real identity after finding a laundry tag in his clothing on which was written the name "McMurtry."

'Food for Peace' Plan Told by Ike

NEW DELHI (UPI)—President Eisenhower launched a global "food for peace" campaign today in this land where millions know hunger, so that friendship among nations can replace fear and suspicion and men may be free in the pursuit of happiness.

Eisenhower said a successful "food for peace" campaign would bring full and prosperous lives to families and replace the threat of war with friendship among nations, ending forever the fear and suspicion that breeds wars.

IT WAS THE SECOND global campaign he outlined today as part of his mission half a way around the world to convince India and the world of America's peaceful intentions. In a speech at Delhi University he called for a world interchange of students to build peace upon a platform of youth.

Attorney Loses Round in Court

SPECIAL TO THE DESERT SUN
INDIO — Attorney William O. Burt lost another round in his court battle to open the Pink Palace ice cream parlor today — but he counter-punched with a new Superior Court motion attacking a city restraining order.

Superior Court Judge Hilton McCabe this morning dissolved a standing restraining order and immediately issued a second, empowering the City of Palm Springs to keep Ed Groves' ice cream emporium closed for failure to pay business license fees.

BOARD APPROVES SCHOOL SITE PLAN

The Board of Education here approved a dream of a school site plan for the California Dream Home Estates development, during their regular meeting Thursday evening.

The meeting was the first official board meeting attended by new member Mrs. Ruth McCann, who replaced attorney Arnold Rumwell. Rumwell resigned recently because of the press of other business.

The plan prepared by architect John Porter Clark, one of three he submitted for consideration, calls for the first school designed for mechanical refrigeration and controlled fluorescent lighting to be built here. Alternate proposals Clark submitted to the five-member board were an adaptation and one revision of the Cielo Vista school plans.

Buildings on the circular site will be located in the northern portion of the 12-acre school grounds, facing northwest — southeast for maximum wind protection.

Because the school is planned for a maximum of approximately 550 pupils, Porter said the initial school buildings in the new plan can be built with approximately 2,000 square feet less of floor space than used in the Cielo Vista school. Such space saving would result in a \$30,000 to \$40,000 construction cost reduction, which would more than meet the cost of lighting and refrigeration, he explained.

The site plan calls for a paved night parking area, and a one-way 20-foot public access road entering at the southeast side of the circle, following the west edge, and exiting to the northwest. Bus and teacher car access would be on a controlled entrance from the public lane.

The administration quarters and multi-purpose building will be joined in the northern sector of

DESERT FLORA TRANSPLANTS BRANCH HERE

Village gardener Willie Branch settled into his temporary "branch office" at county jail today, stung by a legal thorn in a desert cactus patch.

Branch, 36, of 675 Ash Street, was arrested by sheriff's deputies when he was spotted digging up desert cactus plants in the Desert Hot Springs area last month. It's a misdemeanor to dig up native plants, lawmen explained.

But Branch failed to show up in Justice Court two weeks ago and Judge Eugene Theriault issued a bench warrant for his arrest.

The warrant and the law caught up with Branch this week. Judge Theriault gave him 10 days in the county jail for the same charge that cost him a \$50 fine last year.

398,000 Join Unemployed In One Month

One Million Less Jobs Available, Says Labor Agency

WASHINGTON (UPI) — The number of jobs held by Americans dropped by more than one million in November, the government reported today.

Unemployment climbed by 398,000 to 3,670,000.

THE LABOR Department said total employment fell by 1,191,000 to 66,831,000, slightly more than the usual for the month.

The department attributed both changes to mounting layoffs in auto plants and other industries faced with steel shortages in the wake of the 116-day steel strike.

THE RISE IN joblessness was less than expected for November but it was the second highest total for any November since the end of World War II.

The employment figure was a record high for November even though it declined sharply.

THE SEASONALLY adjusted rate of unemployment, however, dropped from 6 per cent in October to 5.6 per cent in November.

This drop was attributed to the fact that fewer women and teenagers entered the labor force to seek Christmas jobs last month.

Vega Scrapped For Boosters

WASHINGTON (UPI) — The federal space agency today scrapped its Vega rocket in order to make powerful boosters available for pushing other projects — perhaps including a new attempt to launch a moon satellite.

In discarding Vega, the National Aeronautics and Space Administration NASA will be able to divert six Atlas intercontinental ballistic missile boosters to other programs.

TRAILER LEADERS MAP NIGHT SHOWS

CATHEDRAL CITY — Night trailer shows, which will cost approximately \$3,000, are being planned by the Palm Springs Area Trailer Parks Incorporated (Rally Association), Wilson Hall, president, disclosed at a meeting recently at the Blue Skies Trailer Park.

Proceeding that organizations' meeting, Unit Seven of the California Trailer Park Association passed a resolution to send to the CTPA headquarters in Sacramento asking that dues for trailer parks in the desert area be on only a six-months basis since that is the average length of stay for trailer residents each year.

In other business, the trailer rally groups elected three new directors for the coming year. They are: Judd Sessions, Sahara Trailer Park; Ben Beckley, Beckley Trailer Park and Dave Cromwell of the Sun Town De-luxe.

They will replace Ray Forbes of Blue Heaven; Merle Hancock of Skyridge and William Ridley of Sunny Cove.

Next year's rally will be the tenth anniversary and souvenir programs and other special preparations will be made for it, the group disclosed.

Approximately 700 occupied trailers are expected to attend next year's show.

Expenditure for the show the past year was \$12,442.39 and the income was \$13,094.57.

Quality of entertainment at the next show is expected to be improved, Hall said.

Trailer Volume At \$250-Million Mark for 1959

Special to The Desert Sun
LOS ANGELES — The mobile home and travel trailer industry in the eleven western states reached dollar volume sales of \$250,000,000 for 1959, it was reported by the Trailer Coach Association, representing the manufacturers, dealers and suppliers.

Total population of residents who live in "homes on wheels" in the West soared to 1,150,000 citizens. California led the nation in sales, approximately \$110,000,000.

TCA manufacturers reported 42,000 units, including travel trailers (units 27 feet and less in length), were supplied in the western area.

Most popular unit for the consumer was the 50 foot long, 10 foot wide, two bedroom model, with the 20 foot travel trailer garnering most vacation enthusiasts.

Too Late to Post Early Yule Mail

"The time has passed to talk about 'Mailing Early for Christmas,'" Postmaster Merritt Williams said today.

It's too late to mail early, but not too late to avoid a tremendous last minute pile-up of Christmas mail, he continued.

WILLIAMS PREDICTED that 1959 Christmas mails will break all records, and that the mail load will undoubtedly hit its peak within the next few days. The flood of outgoing Christmas cards and gifts is being matched by a like torrent of incoming mail that is becoming greater every day, he continued.

L. A. Police Crack Huge Narcotic Ring

Four Jailed After
\$20 Million Dope
Sales Disclosed

LOS ANGELES (UP) — A man and his wife who lived in a \$50,000 home in an exclusive suburban area and employed a maid faced charges today as part of a gang accused of importing and selling 20-million dollars worth of heroin in the past five months.

Robert Newton Gardner, 36, and his attractive wife, Charlene, 25, were arrested Thursday at their Buena Park home. Also arrested were Hector Vergugo, 22, El Sereno, and Johnny Salazar, Jr., 23, Montebello.

POLICE SAID THEY found a cache of \$150,000 worth of heroin hidden in the Gardner garage. The arrests climaxed a four-month investigation by Los Angeles, state and Buena Park officers. The Gardner home had been under 24-hour surveillance for the past month, said police.

Gardner, thought by his neighbors to be a successful business executive, admitted to police he was leader of the ring which did a million-dollar-a-week narcotic business, according to Det. Sgts. Ed Sanchez and Joe Aguirre.

GARDNER and his wife were members of a country club in the area and took part in the suburb's social life, said Sanchez. Gardner actually is an ex-convict and had no regular job, police said. His only income was \$135 from a monthly annuity.

"But on this he has maintained a maid, two expensive cars and belongs to a country club."

Gardner and his wife have one child who was taken to Juvenile Hall after the arrests. Gardner and the others were all booked on felony narcotics charges. Mrs. Gardner was later released on bond.

Police said they learned of Gardner's dealings Aug. 5 when they arrested Louis Padilla, 36, Wilmington, and seized \$350,000 worth of heroin.

50 Oil Paintings To Be Displayed In PD Card Lane

PALM DESERT — More than 50 oil paintings will be displayed in Christmas Card Lane in Palm Desert this year.

Just three years ago, Mrs. Stuart (Mary) Trumble of Palm Desert, conceived the idea of a Christmas Card Lane; then, she had little idea of how the display would grow in interest.

MRS. TRUMBLE the first year supervised 25 oil paintings of oversized Christmas cards by local artists.

With the financial aid of the Palm Desert Chamber of Commerce and the guiding hand of Leisure Loft personnel, the three-by-four feet cards were framed and displayed along the Palm Desert Highway on palm trees and telephone poles, in lieu of the usual commercial decorations.

Mrs. Trumble supervises the annual event and looks after the collection of 50 or more paintings with more expected to be added.

THE WORK IS A cross section of art, ranging from primitive to abstract styles, and provides desert visitors with more than the usual display of Christmas trimmings.

The idea of combining art and Christmas decorations has gained such national fame that several eastern cities have contacted the Palm Desert chamber inquiring as to how to set up such a lane of cards in their own cities.

Many cities have copied the idea with success.

ASSISTING MRS. Trumble is Mrs. Lucette Barth, a student at Leisure Loft; Karma Vogelaar, a painter; Mrs. G. Powell Harding, one of the Loft's art instructors and Ralph Dietz, a chamber director.

THIS LUSH DESERT AND MOUNTAIN region is just part of the area proposed for perpetuation as a vast nature reserve by the Desert Protective Council. Pictured here are the San Jacinto

Mountains as viewed from the Santa Rosa Indian Reservation—an area which embraces an enormous cross section of animal and plant life. (Photo by Harry C. James)

VAST SCENIC BEAUTY of Deep Canyon is captured in this photo, snapped from the summit of Toro Peak by Harry C. James, executive director of the Desert Protective Council. This area typifies the region proposed as a nature reserve—a sanctuary for wildlife and plantlife—by the council.

SANTA ROSA- SAN JACINTO RESERVE

before approval was given to the proposal.

PARTICULAR ATTENTION was given to defining suitable boundaries for the Reserve. Dr. Cowles of UCLA, who is familiar with reserves in Africa, pointed out that only too often not enough territory is included to grant proper protection to a species. It was stressed, too, that it was unscientific to establish a reserve for the protection of only one species, that protection would have to be granted to all in any given area because of the interlocking dependence of one species upon another.

It is hoped that within the proposed Nature Reserve man and nature can go their ways harmoniously — that man can learn to appreciate the esthetic, spiritual, and educational satisfaction of observing native animals and plants and that, in turn, the animals will come to regard him without fear.

WITH THESE GOALS in mind it will be necessary to prohibit within the Nature Reserve — except in special circumstances — hunting, trapping, the poisoning of animals, and the removal of plants. Water holes must be safeguarded. Predator and prey alike must be encouraged to propagate so that the primeval character of the region may be preserved.

The safety of all who enjoy nature undisturbed must be insured, for campers, photographers, artists, outdoor education groups, scientists, etc., are coming into this general area in ever-increasing numbers.

OVER ONE MILLION persons used the San Jacinto Ranger District in 1958, according to Forest

Service figures and of this number only about ten thousand were hunters. (Much of this district would be in the proposed Nature Reserve.)

As San Diego, San Bernardino and Los Angeles counties have closed much of their territory to hunting, more and more sportsmen are coming into Riverside County.

Even though the proportion of hunters seems small, the hazard to public safety in the area poses a very real problem.

THE RESERVE AS planned would cover large areas already posted against public hunting — among them Mount San Jacinto State Park, the University of California Desert Research Center in Deep Canyon, the Santa Rosa Indian Reservation, State Game Refuge 4-D, and much privately owned land — in addition to the land surrounding campgrounds and picnic sites and on both sides of trails and roads.

Nevertheless, excluded from the Reserve would be certain hunting areas not absolutely essential to the ecological integrity of it.

OBSERVATION BLINDS are included in plans for the Nature Reserve. These would be constructed in keeping with the terrain at carefully considered strategic points where the public could observe and photograph the animals native there.

The popularity of the blind at the Arizona-Sonora Desert Museum near Tucson, Ariz., demonstrates what an attraction such blinds can be. Requests for reservations to observe are sent in to the Museum from all over the country months in advance, and photographs made there have ap-

peared in almost every leading magazine in the country.

THE SAN JACINTO-Santa Rosa Nature Reserve would, of course, be administered by some agency of the State of California with a supervisory and advisory committee to watch over the ecology of the region and to make recommendations as to its administration.

The latter group should be composed of scientists, Laymen, and representatives from such agencies as the United States Forest Service, the Division of Beaches and Parks, the Department of Fish and Game, the United States Soil Conservation Service, the Department of Natural Resources, and all Indian Tribal Councils concerned.

THE RIGHTS OF the private property owner must be scrupulously observed, of course, and cooperation sought from all agencies that have interests in the area.

As of now it has not been determined by just what official means the proposed Nature Reserve can be brought about. This

is the subject of intensive study by a Ways and Means Committee appointed for this purpose, with A. J. Basinger of Riverside as its chairman.

ALTHOUGH THE Desert Protective Council has as yet engaged in no wide spread publicity campaign for the Nature Reserve it is proposing, endorsements for it have been coming in from almost every state in the Union. Magazines of national importance have mentioned it favorably in their editorial columns. A long list of camera clubs have enthusiastically approved it.

Many individuals have sent in petitions with long lists of names. Even Dr. Albert Schweitzer in far away Equatorial French Africa has written his hearty commendation of the project.

Community Spirit

Palm Springs is blessed with a group of outstanding civic and community service organizations. Sometimes we may think there are too many, but in a growing community like this these volunteer associations perform a wide variety of vital services. It would be hard to imagine the city without them.

The Chamber of Commerce, the most important of all, is excellently organized with a diversified board of directors that represents practically all of the business and professional interests. Instead of operating independently, the Merchants' Association serves as a division of the Chamber. This helps greatly to coordinate the efforts of both. The Chamber of Commerce staff is divided into specialized bureaus, such as advertising and publicity which conducts the city-financed promotion program. Each function of the Chamber is guided by a committee of the membership.

We could cite a score of groups which are each contributing to community betterment including, of course, the Community Chest and all of its participating agencies. The many varied services provided by our community associations touch the lives of every one of us—and almost every resident holds membership in one or more of these

groups. It might be said that they are what makes Palm Springs tick.

Interest shown in Angel View Crippled Children's Foundation of Desert Hot Springs through a group of Palm Springs residents is another example of worthy undertakings.

Our Junior Chamber of Commerce is a particularly active group and has sponsored numerous programs with vigor and success. Not to be overlooked are our service clubs, all of which sponsor community service programs.

One of the most effective and vital organizations in the business group is the Palm Springs Real Estate Board. We have this group to thank for what we believe to be one of Palm Springs' outstanding characteristics — the lack of unsightly "for sale" signs on homes and vacant property. Such signs could mar the beauty and charm of this famed resort area. To realize what a vast difference it makes one need but visit other communities which are plastered with such signs.

Here is a fine example of voluntary effort — of community cooperation. The Palm Springs Real Estate Board has shown the way and residents have given their whole-hearted cooperation. Few communities can boast of such a spirit.

'From Weakness, Regret'

WASHINGTON, D.C. — Declare war on crime! Outlaw work stoppages in basic industries! Send the Marines to Cuba! Mount a preventive offensive against the Communist alliance before it overwhelms us!

All these ideas, so uncharacteristic of American thinking, are in the end-of-the-year atmosphere. The strangest people are admitting that crime is getting the upper hand in many cities, that collective bargaining won't work, that Cuba is becoming a Communist satellite, that in another decade the Sino-Russian monster will crush our children. These same people, many of them recent converts to militant counteraction, are ready to talk desperate remedies. Maybe it's a good sign.

THE EVIDENCE of rampant lawlessness is front-paged almost daily. There is no longer any doubt that the Steelworkers' leaders are going Marxist in their demands of partial ownership.

It is past doubting any longer that Raul Castro, El Supremo's brother and master of the Cuban armed services, is a guided missile of Moscow. Most military scholars, I think, would agree that the USA still has the edge in air power and sea power, but that the sands are running out on the age of American world supremacy.

WHAT SHOULD we do about it? It is a question which all of the Presidential contestants

ought to be discussing, if not answering. Our posture as an independent and capitalistic nation is altering, and so should our political leadership alter. Three of the candidates, Nixon, Johnson and Symington, have a past history which gives some promise of the ruthless leadership that the times require.

Nixon, I say, because he knows what it is to have the Communists, figuratively and almost literally, at his throat. Johnson, I think, because he has somewhere in him a pragmatic ethic — if it works, it's right — which would make him find a workable way to save the country. Symington, I hope, because he was miles ahead of the press and his Senatorial peers in sensing the pace of the Russian technological advance.

ONE OF THESE MEN — or a better man than they, if we can find him — must school this country in a new ruthlessness. First, we must put down crime, even if it means issuing arms to all citizens. Then, we must overcome Marxism at home, then put down communism in this Western Hemisphere, and wherever else it is a menace, even if that means an atomic war. Liberty or Death!

We cannot choose Liberty without being willing to shed some enemy blood. Indeed, it's doubtful that we can offer ourselves as leaders in an imperfect world unless we abandon our absurd pretensions to perfection. Above all, it's unbeliev-

able that we can endure at all unless we publicly assert the life truths which all of us recognize privately, although in different degrees of wisdom.

WILLIAM FAULKNER in one of his great passages makes the realistic distinction between the strength of love and weakness of sentimental remorse. Faulkner's hero, a boy, has just been taken by the old hunter and been "blooded" after shooting his first deer. The hero thinks: "Had not Sam Fathers already consecrated and absolved him from weakness and regret, too? Not from Love and Pity for all which lived and ran and then ceased to live in a second in the midst of splendor and speed, but from weakness and regret."

THIS IS THE "blooding" that the American people need to be taught by some leader. So many sloppy thinkers have been allowed to sponge our brains that we forget we inhabit a world which is fierce, passionate and tragic, where even humor is a form of cruelty. It is a world which does not faintly resemble the speeches of Dwight Eisenhower — or thus far — any of his self-proposed successors.

The problems that we have will never yield to sentimental "Know Nothing." If we are ordained to rule the world, or to prevent the bad guys from ruling it, we must bring into play a quality of ruthlessness — and we must do it very soon.

Another Glimmer in the Darkness

This Side Of The Sun

By Phat

Within two weeks
Christmas trees will be seen,
White, blue and pink,
Every shade except green.

Among the vari-hued trees we will see which depict the glad Christmas season, I understand the silver ones.
They look like they may have been bedecked by snow.

BUT THE PINK ONES, the blue ones, the purple and the red trees. They are beyond me. Unless one had indulged in too many Tom and Jerrys who ever saw a purple tree?

They may be considered pretty, these bright-colored trees, but to me they are garish. Sort of out of keeping.

JUST FORGET IT. It's the opinion of one old grouch.

Which reminds me that Kenneth Brott, the office manager, asked me the other morning: "So what have you to gripe about today?"

And I told him: "I'm griping today because everything is all right and I can't find anything to gripe about."

GETTING BACK to the subject of Christmas trees of which we will see a lot of within the next few days.

There are plastic trees on the market. Look just like the real thing and I suppose I should be happy about that. For besides providing gainful occupation for the people making them, they conserve our forests.

However, I have one objection to these artificial trees.

WHILE THEY DO not drop needles on the floor or mess up the living room, they lack one important item.

That is, when they are taken down, they cannot be burned. Remember the pungent odor when the Christmas tree was burned in the fireplace along about New Year's?

Plastic trees smell like the well known place when they are burned.

In fact, few people burn them. The thirty ones store them for next year.

But part of the fun of Christmas was tucking the old tree, broken into convenient bits, into the fireplace.

OH, YES, while griping about people who monkey with Christmas, I've got a verbal axe out for the first guy who is stuck for space and spells it Xmas. That's one word I do not like. Greek scholars have given me plenty of proof that Xmas is legally correct. But I still don't like it.

If you haven't got room to write it out in full: Christmas, you can always substitute Yule.

BESIDES, you see painted in the highways:

"Ped Xing" or "School Xing." So if X means cross there why wouldn't Xmas mean Cross Mas?

Oh, well, I've been yammering for 30 years about that and in the mail today came a card: "I'm jumping the gun by two weeks but, Phat, here's wishing you a Merry Xmas."

STAN DELAPLANE:

Mack the Knife

Have been taking stock of self as year nears its end. I think I am holding up as well as can be expected. A touch of nostalgic gray at the temples, but it hardly shows under candlelight.

Am brisk in the morning and more cheerful after coffee.

SMALL WELT ON the head where my son belted me with a toy fire engine. I think it will go away. Eye clear. Hands steady. A duelist's eye, a duelist's hands.

Mack the Knife is back in town.

THE AVERAGE professional life of a column writer is seven years. So is the average for a human cannon ball. That is an interesting comparison and shows what we are up against. Emmanuel Zaechini, human cannon ball in a circus, declared:

"THE CAREER OF a human projectile is about seven years. After that you get aches and pains."

I forget who figured out the fever chart on column writers. But it was one of the slide rule people who are always adding and dividing and ruining your day.

I wonder what the average life is on young Bobby Darin?

THE RECORDING industry has honored this young man for his "Record of the Year." It is entitled "Mack the Knife" and is a poetic eulogy to the switchblade set.

I saw Bobby the other night in the Slate Brothers jazz and wassail emporium in Hollywood. He looked like he had a good many years in him. About 60 I should judge. Incredible.

THE AWARDS are called "Grammy" awards (for gramophone, kids; it was the word we used before hi-fi).

They gave a "Grammy" to John Jones for his orchestra performance of "I Dig Chicks." They gave one to the Mormon Tabernacle Choir for "Battle Hymn of the Republic."

AS USUAL, SINATRA got most of the awards. I saw Si-

natra in the Villa Capri and would give no odds on his averages. Indestructible.

I think singers may have more expectancy than us human cannon balls. It is less of a strain. I have thought some of taking it up. I do a pretty fair thing on the guitar with "Nobody Rampled Like My Ramblin' Rose." It makes the dogs in the neighborhood sit back and wall fearfully.

I HAVE BEEN practicing with the door closed. But do not think I am ready to record yet.

When I am, I will go down and collect my "Grammy."

"You're a Million Miles From Nowhere When You're One Little Mile From Home." I pull your heart strings with that one.

WELL, BACK INTO the cannon again. Load and lock.

Ready on the right? Ready on the left? Ready on the firing line!

Maybe I should have started earlier. Here is a 16-year-old boy in court in Hemel Hempstead, England. He would not let his papa and mamma watch television. He kept the bathroom for himself. His papa had to shave in the kitchen.

HE LOCKED THEM up at night, took his father's weekly paycheck and made them live on an allowance.

A child like that does not need to be a singer or a human cannon ball.

He will grow up and be a captain of industry and give a new wing to the library.

His professional life average is unlimited. It is better not to be a cannon ball. The job to get is where you pull the trigger.

An Editorial: Daily Inventory

When evening comes, go off into a quiet place and review your day.

Have you been kind and thoughtful, or mean and thoughtless?

Have you kept an even temper, or have you lost your temper when things have gone wrong?

Have you inspired those whom you have met, or have you depressed and discouraged them?

Have you done anything creative and worthwhile, or have you wasted the day with petty things?

Have you increased the happiness moments in the lives of others, or have you thought only of self?

What we do day by day determines what we become. Hour by hour we build our lives for better or for worse. A daily inventory will help to keep us on the right track, headed toward our highest ideals.

Tarzan's 'Mate' Visits Apartments

Life literally came to the Sandpiper last weekend when Clara B. Lea entertained her sister-in-law and her niece, Mrs. John Barnes and Miss Joanna Barnes. Joanna is the Phi Beta Kappa featured in a very recent issue of Life magazine as "Jane with a Brain," and plays "Jane" in the current movie Tarzan series.

Mrs. Lea's cocktail party also included Mr. and Mrs. William Cider, Mr. and Mrs. Stewart Teaze and their daughter, Rodda.

Eleanor Stinert, who makes her home at Park LaBrea in the Los Angeles area, was the guest of Mrs. Kirk Stinert and her son, Breck. Mrs. Stinert spends a good deal of time with young people as well as church and social work. The Stinerts were one of the first Sandpiper owners.

Westminster City Manager James Black, his wife and their three children enjoyed the Sandpiper atmosphere and desert climate over last weekend. Mr. Black also spent a challenging afternoon at Indian Wells golf course.

Also from the Orange County area several days ago were Mrs. Helen Frank and Mrs. Jessie Hill from Corona Del Mar. Mrs. William T. Caldwell of Laguna and Miss Dorothy DeTuydt of Lido Island made up the foursome that enjoyed the Frank Harrington apartment in the Sandpiper's first unit.

Recent guests of Mrs. Beatrice Durfee were Mrs. Arthur Taylor of Beverly Hills and Mrs. Barnard Rand of Los Angeles.

NEW INCOME TAX RULES REVEALED

LOS ANGELES — The Internal Revenue service announced today that new rules affecting daily transportation and per diem allowances will go into effect Jan. 1, 1960.

The rules call for more deductions. Other rules, which will be used to gauge whether actual related employee expenses are deductible, will come later.

DETAILS OF THE new withholding rules will appear in Revenue Ruling 59-221, Internal Revenue Bulletin 1959-47, dated Nov. 23, 1959. Basically, the rules will provide for withholding from expense allowances when:

1. The employee has worked for a "substantially continuous" period of one year in any particular project area; or

2. It is expected, when employee

is hired, that employment will be in a particular project area for more than one year;

3. IT BECOMES "apparent at any time" that services in a particular project area "may reasonably be expected" to last more than one year.

Copies of the bulletin are available for 20 cents from the Government Printing Office, Washington 25, D.C.

10-STORY TRAILER PARK ENVISIONED BY SANTA MONICA

CATHEDRAL CITY—A Santa Monica man has made plans for a 10-story trailer park.

Judd Sessions, Sahara Trailer Park, disclosed at a meeting of the California Trailer Park Association here that he had first heard of the idea in Wisconsin several years ago.

"But," said Sessions, "this man in Santa Monica has plans, specifications, and expects to put in 8 to 10 stories of prefabricated steel."

Sessions said it would be similar to present parking lots which are several stories high.

Sculptress Has Model in Show

By GRETCHEN CHEESEMAN

Mrs. Cyria Henderson, well known sculptress, who lived in Africa and England before coming to the desert has just completed several new works. One notable model is the head of Johnny Shosone famous Indian figure in Death Valley, and this is now on exhibit at the Furnace Creek Art Show that was a big attraction of the Forty-Niner encampment here, the latter part of November. Mrs. Henderson is also exhibiting four models in the Madonna Memorial Museum in Santa Ana. She always has a few models in the Desert Museum here in Palm Desert.

Ronnie Howard, son of the late Leslie Howard, famous movie figure, was a desert visitor last week. He was the guest of Mr. and Mrs. Charles Pelgram, who were his father's intimate friends.

Dr. and Mrs. N. L. Domouchell of Aberdeen, Wash., are houseguests of Mr. and Mrs. Robert N. Arkiey of Vancouver and Palm Desert. They plan to be here at least ten days.

"MAKE UP YOUR MIND, SON..."

Much can depend upon a proper choice. Happiness... personal success or failure... financial gain or loss. So, as Pete's father knows, it is important that a boy learn how to make the right decisions. Pete has learned well. He chose between idleness and frequent "hand outs" from Dad and a profitable newspaper route, a growing business of his own. He chose between frittering his earnings away and saving a part of them toward a college education or something else really worth-while. He chose to stand on his own two feet—the pride of his parents and the envy of his friends. As a newspaperboy he is building solidly for the future.

Rams to Try For Upset Win Dec. 12

Contest Could Decide Outcome Of League Race

The Baltimore Colts will put their championship hopes on the line against the Los Angeles Rams Saturday, Dec. 12 in the Los Angeles Memorial Coliseum, in a game that will be presented on the CBS Television Network at 1:30 p.m., p.s.t. The contest could decide the outcome of the Western Conference race of the National Football League.

The Colts beat the Rams, 33-21, two weeks ago in Baltimore. However, the Colts have found the West Coast inhospitable since entering the NFL in 1950. Up to their present trip, the Colts have won only one of 14 contests in Los Angeles and San Francisco: a 22-21 victory over the Rams in Los Angeles in 1954.

The Rams can play the part of the "spoilers" in the upcoming game, as the Colts are battling with the 49ers for the conference title and a win is a "must" for them. The Rams have a high-powered offense and they feel that a victory over Baltimore would more than offset some of their previous losses.

Bob Kelley, Gil Stratton and Elroy Hirsch, former Ram star, will broadcast the action and color from the Coliseum.

JACK FIDDLER his way through an uproarious half-hour when he visits his Pasadena Fan Club Sunday, Dec. 13 (10:10-11 p.m., p.s.t.), on the CBS Television Network. Don Wilson, Dennis Day and Rochester are featured. Naomi Preble and Connie Van play two of Jack's "fans" in photo.

PERSON TO PERSON

FIRST OVERSEAS SHOW SET SUNDAY

Historic Blenheim Palace, birthplace of Sir Winston Churchill, will be the scene of the first overseas video tape presentation of "Person to Person" when Charles Collingwood visits the Duke and Duchess of Marlborough Friday, Dec. 11 (10:30-11 p.m., p.s.t.) on the CBS Television Network. It was announced by Michael H. Dann, Vice President, Network Programs, New York.

Also to be visited on the same program will be film star Leslie Caron and her director-husband Peter Hall, in their London apartment.

The 10th Duke of Marlborough, named John Spencer-Churchill, is a cousin of Sir Winston and is the present occupant of the beautiful palace in Woodstock, Oxfordshire. Blenheim was built by Queen Anne for John Churchill, the first Duke of Marlborough, in 1705.

Leslie Caron started her theatrical career as a ballet dancer. She was discovered by Gene Kelly and introduced to the United States movie public in "An American in Paris." Since then, her screen successes have included "Gigi," "Daddy Long Legs," "Lili" and many others.

The "Person to Person" overseas programs, produced by Alan Neuman, are presented on video tape, using the facilities of Associated Television Limited (ATV), British television program producer, with mobile equipment specially adapted to U.S. standards.

Bridges Goes Hunting for Top Secrets

While teaching two Scuba men the fine art of recovering guided missiles from underwater, Mike Nelson (Lloyd Bridges) receives an emergency call from one of the top scientists. During a fishing trip, a portfolio containing top secret information was "accidentally" dropped overboard.

After investigating, Mike uncovers an ingenious scheme: when the scientist was taken fishing, his companion, John Bentham, arranged for the "accident." He had a Scuba diver concealed beneath his boat who snatched the portfolio and swam away to a deserted island.

How Mike pits his underwater skill against the clever theft plot creates a breathtaking climax on this week's "Sea Hunt" episode seen Friday night, Dec. 11 at 10:30 p.m. on KRCA (Channel 4).

Benny to Get 'Dimes' Award

CBS Television Network star Jack Benny will receive the annual March of Dimes Humanitarian Award at a dinner to be given in the Grand Ballroom of New York's Waldorf-Astoria Hotel on Wednesday, Feb. 24.

GARDENING IN THE DESERT

There Are Benefits For Desert Gardeners

A gardening thought: We should be thankful that we live here, in the low desert. Mr. Amateur Gardener, in fact any gardener, can have his green lawn, evergreen trees, shrubs and flowers that he can work on in our winter weather and winds that are mostly absent — pleasure of which inhabitants of the high desert, some interior valleys, and the mountains are robbed — for at least the next four months.

We seldom have a frost-damaging temperature of 23 degrees and below, shrubs like the Wormwood Senna — a two to five foot plant — is at home in our warm desert location. Its yellow flowers show up in late winter, and now and again you might find them around in early summer. The red, brush-like flowers of the Lemon Bottle Brush, which varies between 10 and 20 feet, grows well in arid regions like ours. With a little iron chelate now and again, its foliage will retain its green color.

IF YOU HAVE in your garden some young, thin-trunked trees, especially the tall ones, give each of them a solid stake to help against the winds which are about due. Do not use wire of any kind when tying them to the stake. We have found that pieces of cast-off hose, through which a strong string is passed, will not injure the young trunk as wire will.

The bigger trees with thicker trunks should also be protected. As our winter winds are mostly westerly or northwesterly any high tree might need a supporting stake that will hold them against the wind. We have seen thick branches of the main trunk of a fully grown Chinese Elm torn away by a strong wind and the trunk itself die as the result.

ANOTHER DETRIMENTAL effect of the winds is that they dry up our sandy soil as much if not more than the sun does — so be

sure your plants have sufficient irrigation in windy weather.

When the thermometer drops to 32 degrees or below you can be sure that bougainvillea and castor bean trees are the first to suffer. If you wake up in the morning and see black leaves sagging on the castor bean tree you may be certain the thermometer shows 32 or below. Unless the thermometer shows lower still you can possibly save the bougainvillea by covering it in the evening with a couple of thicknesses of burlap, and as an extra precaution run a wire from the nearest electric outlet and install a bulb inside the burlap.

JUST A LIGHTED bulb might give sufficient heat to keep the bougainvillea alive. We learned this from Frank Bogert when he was manager of Thunderbird Ranch. As regards the Castor bean Tree, don't worry, it will come back on its own.

It is not too late yet for the planting of Gladioli bulbs. It takes them anything from 60 to 90 days ago you should later enjoy your blooming Gladioli longer.

ALDES, which botanically are a genus of plants of the lily family, and of which there are about a hundred species, were native of Western Asia and South Africa and the West Indies. In fact the Negroes of West Africa used to make cordage and nets with them; may be they still do if they have not gone lazy. However, the Aloes of which we are writing have short stems on the top of which orange colored flowers show up in summer.

Aloes can be planted in the basin of Parkinsonia or any tree that will give them shade during the really hot weather. You can move them even if they are well established and you would like to put them somewhere else.—T.G.M.

FHA Inclusion Of Built-Ins Brings Praise

Gas Company Aide Lauds Housing Agency's Actions

Recent innovations by the Federal Housing Authority to bring built-in appliances under its property improvement program were lauded today by Southern California Gas Co. division manager William P. Hand.

"With this move, the FHA has definitely recognized the over-all acceptance of built-in appliances in today's modern home market," Hand stated.

"THE MOVE BY FHA to make built-in appliances eligible for loan insurance is a definite step forward in upgrading the value and convenience of many existing homes here in Southern California," he added.

"The modern conveniences of built-in kitchens that have proved so popular in homes of the Great Builders Series are now available to owners of existing homes planning major kitchen remodeling.

"FOR THE FIRST time," Hand said, "families with older homes in need of modernization and repair can join the national trend toward automatic built-in gas kitchens and have the entire project covered by FHA loan insurance."

In the past, only such kitchen items as cabinets, sinks, flooring, and other permanent materials installed have been eligible for inclusion in FHA terms. With the addition of built-in appliances, installation of a complete new kitchen is now possible.

State's Drivers Pay \$30 Million For Highway Use

SACRAMENTO (UPI) — Controller Alan Cranston reports that California drivers paid \$30,562,627 in November for the privilege of driving on the highways.

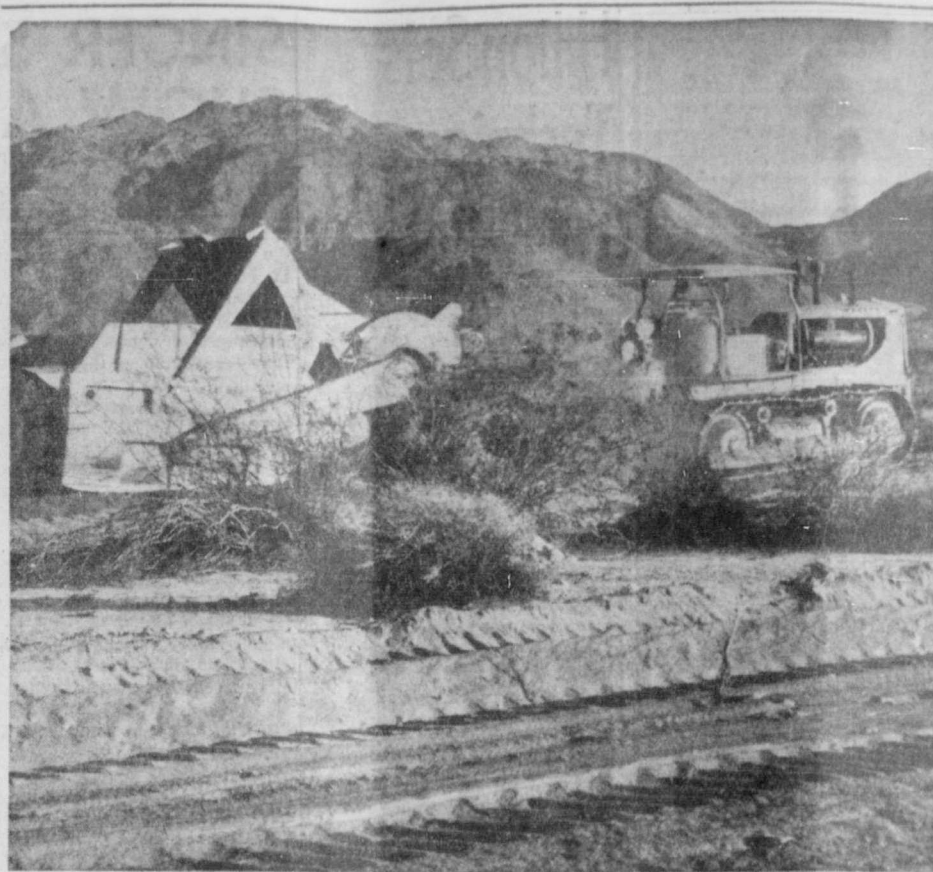

Cranston said Wednesday that the total was 3.32 per cent over the highway users taxes collected in November, 1958.

He added that \$20,463,347 of the total went to the state highway fund for highway expenditure, \$7,268,083 went to counties, and \$2,831,197 was credited to California cities.

Choose Your Weapon

AL TAHOE, Calif. (UPI)—Herb Brettschneider of the Al Tahoe sheriff's office fired three shots at a suspect who was escaping from jail and missed each time.

The next day Brettschneider found a neatly wrapped package on his desk. Inside he found a brick . . . and this message: "Dear Herb, try this."

DRAMATIC ACTION is taking place at Silver Spur Ranch in Palm Desert where heavy equipment is carving roads in the estate area of the 600 acre development. These home sites will be an acre or more and are adjacent to the desert homes of Bing Crosby, Jimmy Van Heusen, Bill Morrow

and Pete Pettito. Sol Lesser, Hernando Court-right, Willard Keith, Joseph Shane and Alfred Hart have joined Adrian Schwilck, the original developer of Silver Spur Ranch, in the tremendous expansion program now underway on the exclusive property. (Kennedy-Walker Photo)

AMONG THE MANY NEW owners of luxury homes at Vista Las Palmas Estates are Mr. and Mrs. Paul Medearis, pictured above with Herb Lakey, center, who is in charge of sales for the Alexander Construction Company's development. Mr. Me-

dearis is an internationally known oil tool manufacturer. Lakey reports brisk sales for the residential development, with all of the homes now building expected to be sold within the next 60 days. (Gayle's Studio Photo)

NEW ALEJO PALMS MODEL IS OPENED

Jack I. Meiselman opened the model home for his new Alejo Palms Estates at 10 a.m., today, with several of the houses in the 57 house development already sold. The model home is located at 506 Monterey Road, at the intersection of Monterey and Alejo Road.

"THESE HOUSES are built to custom standards," Meiselman said, emphasizing that "this is not a tract development."

The builder cited use of the premium-line "Aqua Seal" plumbing fitting by American Standard as an example of the quality materials utilized in the new houses. The "Aqua Seal," not previously offered here, is a self-cleaning water seal which prevents drips, leaks, and seepage in bathroom fittings, Meiselman said.

OTHER FEATURES include silent mercury light switches, large overhangs, and large glass areas

facing family play sections of the homes. Roof-lines are clean, with no roof cooler installations, and all curbs, gutters, sewers, and sidewalks are being installed, Meiselman said.

Commenting that there is "no substitute for quality," the builder explained construction of the houses utilized concrete, stucco and steel.

THE HOUSES, built along Farrell Drive from Alejo to Tamarisk, are offered in 12 elevation and floor plans. Models include two bedrooms and two baths, convertible den, and three bedrooms, two baths. Some models offer family rooms, and open-bar or closed kitchens are optional.

Meiselman announced prices will range up from \$19,500, with \$1,400 down payment, and 20 year second mortgage offered at six and a half per cent, with no "balloon" payments.

Truman in Blast At Rock and Roll

NEW YORK — Harry Truman's voice came crashing through the Waldorf Grand Ballroom after we'd heard Mischa Elman with the violin.

"When you listen to that kind of music," shouted the former President of the United States, "how the hell can you stand rock 'n' roll?"

The cheering for his pronouncement showed that some of the top names in N.Y. — attending the Cardiac Center banquet for Mayor and Mrs. Robert Wagner — are hoping rock 'n' roll dies. Harry Truman himself had pounded out Paderewski's Minuet on the piano a few minutes before in tribute to Mayor Wagner — and then had exclaimed:

"Mischa Elman is one of the greats. He just admitted to me that 50 years ago I heard him play in my old home town, with Melba."

I bolted the dais where Harry Herschfeld was toastmaster when Truman left, to ask of a rumor that he might be a candidate for the U.S. Senate.

Truman had said, earlier, that he liked the Senate "better than anything I ever did... I wanted to stay there, but I got myself in trouble" (grin) "I would sit there when I first got to the Senate and wonder how I ever arrived there... after I sat there six months, I wondered how the rest had arrived there."

But about running for the Senate now, he told me: "No, no, positively no!"

"You're not interested?" I asked.

"Of course I'm interested!" he shot back. "But I'm too old to run." (But I wondered if he was, and I wondered if he wondered if he was.)

Dick Clark's still doing all right — he and producer Irving Mansfield had a 26-week "play-or-pay" contract with ABC for the "World of Talent" TV show — and though the show'll run only 13 weeks, they get paid for the remaining 13. They'll split \$200,000! . . . Some of Clark's daytime sponsors have renewed contracts . . . One of the laughs in Tin Pan Alley is: "ABC told Clark to get rid of his record company — so why didn't he tell ABC to get rid of its record company: ABC-Paramount?" (What about NBC and RCA-Victor, and CBS and Columbia Records?)

Comedian Gene Baylos — starring at the Boulevard with crowd favorite Tina Robin — told the listeners: "If you're a good audience tonight, we're going to open up the doors and let you watch an accident out on the highway" . . . Prop. Abe Goldstein, offered \$300,000 for his 10-year lease there by Howard Johnson, has rejected it and in turn offered \$2,200,000 for the 96,000 sq. ft. of property.

SINGER SPICES SHOW AT CHI CHI

Mary Meade French, who makes a habit of "coming across" footlights in a manner few singers can emulate, has been added to the current Starlite Room show in the Chi Chi Club here.

The show, which features Patti Moore and Ben Lessy and which also presents dancers Cabot and Dresden, continues through Sunday night.

SINGING IS VERY nearly a secondary thing to Miss French. She has wrapped a great many "standard" tunes up in a new and attention-compelling wrapper of special material.

Her "My Ideal" medley—which includes the now-famous reflector trick in the "I Am Just a Little Girl" phase of the workout — is a classic in a business that has seen many such attempts at "special presentations." (In fact, your reporter was blinded to the degree that he took no notes for five minutes.)

MARY CAN HANDLE tunes straight, a fact she proves with "Mr. Wonderful" and "You Do Something to Me." The "Wonderful" delivery indicates more than passing rapport with the meaningful lyric of the Broadway tune, another facet of club singing that

MARY MEADE FRENCH

hasn't been too noticeable in most such singers.

But it is in this rash of special materials that Mary is at her ease — and at her best.

HER TWO VERSIONS of "Let's Fall in Love" could have been simply an effort to be cute. Instead, it turns out as marvelously effective piece of material.

Combined with the Moore-Lessy and Cabot-Dresden teams, Miss French supplies the change of pace, change of material that spices the ordinary into warm experiences. That's how this Chi Chi bill shapes up now.—G.L.

STANDPAT BASEBALL DISAPPEARING

White Sox Build for 1960 Pennant Drive

By JACK CUDDY, United Press International
NEW YORK (UPI) — Standpat baseball is a thing of the past and the club best exemplifying that point today is the revamped Chicago White Sox.

The White Sox won the American League pennant this year but apparently remembered the fate of the 1954 Giants and 1958 Yankees. Both stood pat after winning world championships in those years and watched their titles disappear the following seasons.

"Our biggest need is more power," said White Sox boss Bill Veeck following his team's loss to the Dodgers in this year's World Series. "We need more punch in the lineup and we'll get it somehow."

VEECK DID EXACTLY that during the major league meetings just concluded at Miami Beach, Fla. He re-acquired Minnie Minoso, who averages better than 80 runs driven in a season, and obtained home-run hitting Gene Freese in a deal that made White Sox rivals shudder.

"The White Sox used to need four singles to score one run," commented Detroit Manager Jimmy Dykes, "but they don't any more. They can now throw a line-up at you with such power in it that a lot of people aren't going to recognize them from last year."

DYKES IS RIGHT. No one could call the White Sox "banjo hitters" any more. Sluggers like Ted Kuszewski, Sherm Lollar, Minoso and Freese should make many opposing pitchers wince and forget all about the days when the White Sox' principal attack was a long single, a pair of stolen bases and a sacrifice fly.

"They knew they couldn't stand still after the Dodgers stood in the World Series," declared Casey Stengel. "You can't stand still any more in this business. As soon as you do, somebody's sure to pass you."

IF THAT'S THE CASE, how come the Yankees have stood pat so far, even though they nose-dived to third place this year?

In answer to that, General Manager George Weiss says, "I am quite sure we'll make a deal before the season opens."

Weiss admitted the Yankees were close to three or four deals during the meetings although none were completed. But they may be completed even before the new year rolls around.

Troy, Bruins Meet Strong Foes Tonight

LOS ANGELES (UPI) — The University of Southern California basketball team, fresh from an upset victory over Kentucky, entertains Oklahoma State tonight in the feature of a doubleheader at the new sports arena.

UCLA, also impressive in winning over Santa Clara last week, engages Brigham Young University in the preliminary. The teams swap opponents for another twin bill Saturday.

Coach Forrest Twogood, whose Trojans lost two times before getting untracked against Kentucky, will start three veterans and two sophomores — Chris Appel and John Rudometkin — against the ball-control conscious Aggies.

HANK IBA'S OKLAHOMA State teams always have the reputation of being among the best drilled, slickest basketball teams in the nation — even in defeat. The Aggies will be underdogs, partly because of green material and also because of a lack of team height.

Other Trojan starters will be leading scorer John Werhas, Bill Bloom and Jim Hanna.

Injuries this year, BYU's chances this year. But the Cougars still have such standouts as center Dave Eastis and Gary Earnest.

DESPITE A LACK of seasoning, UCLA has surprised most observers with early season play. Bill Ellis is the key to the Bruin attack at guard, with center John Berberich, Gary Cunningham, Kent Miller and Bob Berry rounding out the starting five.

Miller is the only veteran on the starting team.

Tailback Bill Kilmer of the Bruin football squad joined the team this week and may see limited service at guard.

Del Mar, winner of the Pioneer League title and No. 2 in the nation, is strong defensively. No team scored more than one touchdown against the Vikings who ran up 225 points to 56 for the opposition.

The 1:30 p.m. kickoff will be preceded by a parade.

A crowd of 55,000 is expected at the famed Rose Bowl where the bigger college teams plan on New Year's Day. Of that number some 20,000 will be ardent backers of the Renegades who made the 125-mile trek from Bakersfield by evening means of transportation except covered wagons.

The 42-man Bakersfield squad arrived Thursday and Coach Ray Newman of the nation's No. 1 rated jayvee team declared, "I feel optimistic every time we go into a game. With the type of players we have at Bakersfield, I am certain we can hold our own with any junior college team in America."

The 42-man Bakersfield squad arrived Thursday and Coach Ray Newman of the nation's No. 1 rated jayvee team declared, "I feel optimistic every time we go into a game. With the type of players we have at Bakersfield, I am certain we can hold our own with any junior college team in America."

Del Mar, winner of the Pioneer League title and No. 2 in the nation, is strong defensively. No team scored more than one touchdown against the Vikings who ran up 225 points to 56 for the opposition.

Shaw to Remain As Eagle Coach Another Season

PHILADELPHIA (UPI) — The Philadelphia Eagles announced today that Lawrence T. (Buck) Shaw will be retained as head coach for the 1960 season.

The 60-year-old Shaw, completing his second season at the helm, accepted club president Frank L. McNamee's invitation to stay, but said he would retire at the end of the 1960 campaign.

Shaw lifted the Eagles from last place in the National Football League in 1958 to second place this season with only one game remaining.

The Eagles face the Cleveland Browns this Sunday, sporting a formidable 7-4 mark.

The former Notre Dame star line man came to the Eagles after spending nine years as field general of the San Francisco Forty Niners and two years at the Air Force Academy.

Shaw will coach the Eastern pros in the annual All-Pro game in Los Angeles on Jan. 17.

Armstead shot a stiff left jab time and again at Vasquez's face, closing one of the Mexican's eyes and sending him down for a brief count in the seventh round.

Armstead also beat Vasquez in the same ring a year and a half ago.

STAN CIRATA WON'T BE WITH THEM

Indians at Riverside For Practice Game

Minus the services of Stan Cirata, veteran of last year's team and an All-County League choice, Coach Jim Workman takes his High School Indians to Riverside today to meet the strong Riverside Poly High team in the second practice game of the season for his charges.

Last week the Tribe bowed to Ramona High of Riverside and meet a stronger team today.

MARTY BERK, another letterman who made good on the varsity after moving up from the B squad last year, will probably replace Cirata at the guard position.

Workman is hopeful that Cirata's ailing knee will respond to treatment sufficiently so that he will be able to return to the lineup after the holidays when the Indians start their first Desert Valley League season.

GAME TIME TODAY is 4 p.m. for the B squad which plays the preliminary game and around 6:30 for the Varsity.

Workman's tentative starting team against Poly High is Rick Strauss, Terry Lawrence, Bill Ivey, Eric Williams and Marty Berk.

All except Lawrence are veterans of last year's team. Lawrence is a transfer from Hawaii.

IN RESERVE and tabbed for plenty of action tonight are Joe Jones, the Walton trio, J. D. J. C. and Gus, Ken Baker plus other returnees from last year's squad.

Tonight marks the second practice game for the Tribe and their last before the Banning Holiday tournament between Christmas and New Year's.

HEART FAILURE was believed to have brought death to the former world featherweight, lightweight and junior welterweight champion at 51.

At the Hotel Bryant — in the room of the little man who had fought from the shoe-shine street corners of New Orleans to boxing's hall of fame medical examiner John Devlin from the corner's office said death apparently had resulted from natural causes and that the exact cause would be determined today.

ATTENDANTS at the hotel said Tony had been dead "about two days" before Willie Lustig, a friend, and bellboy Frank Medici found him sprawled on his bed.

"A 'don't disturb' sign on the door had prevented the hotel maids from going into the room. Ironically, it was 'heart' that made the muffed-faced, black-haired brawler the scourge of four divisions during his 15-year career of 178 professional bouts.

He had remarkable skill and punch and ruggedness, but it was heart — blazing courage — that sent him swarming into every opponent he ever faced. And he faced the best bantamweights, featherweights, lightweights and welterweights of his era, from 1925 through 1939, inclusive.

Other leading candidates included T.V. Lark, victor in the \$212,000 Arlington Futurity; Noble Nor, winner of the \$163,850 Hollywood Juvenile championship; and Tompion, winner of the \$114,475 Hopful Stakes at Saratoga. Winner of the 1½-mile event last year was Silver Spoon.

Announce Plays for Playhouse

Comedy of the latest vintage has been mixed with mystery and melodrama in the seven plays announced today by executive-director Eric North for presentation at the Palm Springs Playhouse on the polo grounds during its 14-week season, which opens next month. The remaining seven will be announced within the month.

For the opening play, January 9 through the 17th, North has chosen "Once More With Feeling," the Broadway play by Harry Kurnitz which starred Joseph Cotten and Arlene Francis.

Described as a gay, sophisticated comedy laid against a New York background, the central characters are a delightfully temperamental symphony orchestra conductor and his equally delightful wife whose temperament channels itself in a different direction. The stars will be announced at a later date.

Influencing his choice of plays now contracted for, North stated he has aimed for variety in the new ones on the list as well as those of proven quality that have stood the test of presentation before discriminating audiences. Exact release date on the following, he added, depends upon the availability of stars under consideration.

"The Mouse Trap," one of Agatha Christie's greatest mystery melodramas is scheduled for early presentation. Then there is "The Girls in 509" by Howard Teichmann which recently delighted New York audiences. It is tabbed as a political comedy, laid in New York, and according to the critics, is for Republicans, Democrats and Independents who want to laugh. In addition it is said to delicately point up the sure method for a girl to get her man.

The Michael and Faye Kanin play, "Rashomon," which moved critics to high praise when it appeared on the screen recently, will provide Playhouse audiences with an opportunity, according to North, to enjoy drama with a distinctly different flavor. Its background is Japan and the play is based on the tales of the Japanese short story writer, Akutagawa.

"The Gazebo" by Alec Coppel is a comedy melodrama on the list for definite showing at the Palm Springs Playhouse Guild sponsored theatre. Walter Slezak created the role on Broadway of the mild mannered husband of a glamorous wife who seeks release from reality in a summer house he has had built on his property and named the Gazebo. Why he never has an opportunity to use it is the plot of the play.

For contrast Joseph Hayes' mystery thriller, "The Desperate Hours," is on the list. It is described as one of the most gripping plays to come to theatre audiences in many years.

And for good measure and because, according to Producer North, no theatre season is completely balanced off without a Noel Coward play he has chosen "Fallen Angels" which starred Nancy Walker and Margaret Phillips on Broadway. In gay, Cowardish wit is recounted what can happen to two young matrons who become bored with their daily routine.

When the Playhouse opens next

month it will present professional theatre to desert audiences in a transformed setting of proscenium styling with elevated stage, easily viewable from any one of its 366 seats. Technical Director Joseph Morton and Producer North have worked out ramp elevations and sight lines to produce comfortable visibility to the last row in the house.

All seats will be reserved with reservations invited early for the season.

An exciting color scheme of charcoal, pink and red has been chosen and approved by the Playhouse Guild. And to add spice to the foyer, art exhibits by local artists will be on view as has been the Guild's custom in the past. The refreshment bar is undergoing revamping and redesigning to better accommodate audiences during intermissions.

**Mince Pie Spells Party
 As Favorite Winter Dessert**

However you like it—a la mode with ice cream, topped with a spoonful of hard sauce, served with a piece of cheese; mince pie is the big American holiday dessert. All winter long it spells party.

It's easy to make. Mince meat nowadays is instantly ready-to-use. You can keep the big one-pound, twelve-ounce jar unopened on the supply shelf, or opened, in the refrigerator, ready-to-use in whole or in part whenever you wish. So roll out your pastry, made with a mix or by your favorite recipe, open a jar of instant mince meat — and you'll have a perfect pie ready for the oven in just a few minutes.

When it comes to toppings, you can give your guests a choice. Most of them, perhaps all, will pass up hard sauce, ice cream and cheese, and eat the delicious pie "as is."

HOLIDAY MINCE PIE
 (Makes 1 9-inch pie)

One 1-pound, 12-ounce jar instant mince meat
 One recipe pastry

Line 9-inch pie plate with pastry, fill with entire contents of 1-pound, 12-ounce jar of instant None Such mince meat. Moisten edge of crust with water. Cover with upper crust, trim, press edges together. Cut several gashes in center of upper crust. Brush top crust with milk. Bake in hot oven (425°F.) until golden brown, about 30 minutes. Or cut pastry for top crust in half-inch strips and lay them on filled lower crust in lattice. Press ends of strips to edge of lower crust, which has been moistened, or place a roll of pastry around edge of pie, pressing down over ends of lattice. Bake in hot oven (425°F.) until golden brown, about 30 minutes.

New Members Introduced at Club Meeting

Prospective members, who will be inducted into the Club at its next meeting, were introduced and gave short autobiographies when Soroptimist International of Palm Springs held their regular Tuesday meeting at Desert Inn. Both interesting and amusing, the introductory talks agreed on one thing . . . all were happy to be living in Palm Springs.

Program chairman Lucille Johnson presented Tex Kidwell, singing cowboy, who entertained with a medley of Christmas, Hawaiian and Spanish melodies.

President Trixie Jarrett presided at a brief business meeting.

SOME FINE NEW FEATURES ON 1960 CADILLACS

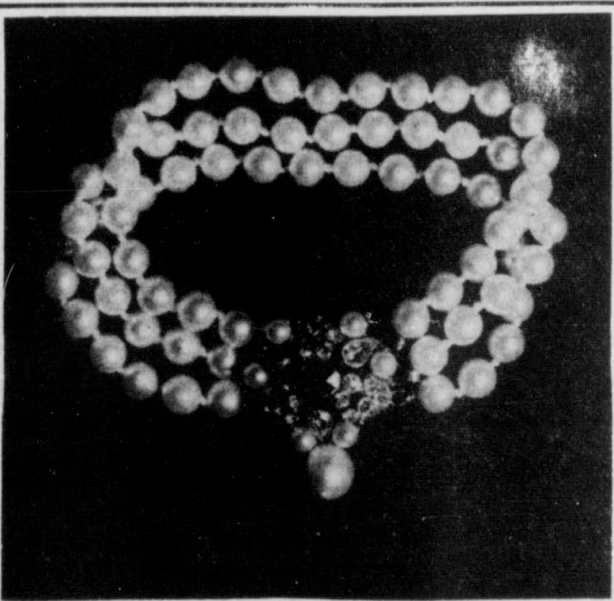

By "Mac" MacDonald
General Manager

"I would like to call attention to several important improvements that have been incorporated into the beautiful new 1960 Cadillacs. Of prime importance are the new self-adjusting brakes which adjust themselves automatically while the car is being driven. As long as the brake linings are good, the brakes will remain in perfect adjustment for the life of the car. Also, the parking brake on the new models have a feature which automatically disengages the parking brake as soon as the car is put into gear. Another wonderful new feature is the new "Guidomatic" automatic headlight dimmer that is known as the "Cadillac Courtesy Salute." This assures all approaching nighttime drivers that the new 1960 Cadillac will automatically dim its headlight at the proper distance for all oncoming cars. Why not stop in and let us demonstrate these new safety driving features to you, by actual test?"

Sculptress on Program for A.A.U.W.

Again demonstrating her unusual ability to do two things at once, Cyria (Mrs. Randall) Henderson, sculptress, skillfully modeled a head in clay while she spoke on the history of the desert area, at Tuesday night's A.A.U.W. meeting, held in the attractive community room of Security First National Bank.

Mrs. Henderson described in detail the remarkable resourcefulness of the Cahulla Indians in their use of desert plants for food and shelter.

Pamphlets provided through the courtesy of Herb Samson, director of the Security First National Bank, were then distributed to the members. These pictured the Stevens sculpture which frames the entrance of the bank and tells the story of the various panels, dealing with the same events of which Mrs. Henderson had given a lively account.

Business was kept to a minimum. The only important announcement is that A.A.U.W. Year Books for 1959-1960 are now available and may be secured from Hazel Gross.

Carnations and camellias will be worn as large boutonnieres during spring, 1960.

Need Help with Baskets for Christmas

There is still time for local individuals and organizations to support the annual Christmas basket project sponsored and coordinated by Welfare and Friendly Aid Association. Response has been disappointing so far, according to Mrs. Joan Nickerson, who asks that any individual or organization intending to aid a less fortunate family or families this season contact her at FA 5-5688 between one and four weekday afternoons so that she can check off the name and thus avoid duplications.

Groups already working on the project include American Legion, Business Women's Club, Sigma Lambda Phi and Rotary. The Campfire Girls have taken the responsibility for two families and the Brownies will bring yule cheer to another.

A handy kitchen safety gadget is sold at stationery counters in dime stores. It's a rubber finger protector, shaped like an elongated thumb, which will protect your thumb from scratches and cuts when you scrape, pare or cut fruits and vegetables.

Dear Abby... by Abigail VanBuren

DEAR ABBY: I was extremely amused at the letter signed "A DOCTOR, SEVENTY PLUS" because I knew one of those old coots who married a beautiful young woman who was thirty years younger than he was. They were happy for about six years. Then she became a widow.

She didn't cry too hard because she inherited enough money to get someone her own age to marry her. So you see, Abby, it sometimes pays to carefully count a man's years. LOIS

DEAR LOIS: The lady in this case probably "carefully counted" the man's money — not his years.

ABIGAIL VAN BUREN

DEAR ABBY: A neighbor of ours just came back from a mental institution. She had a nervous breakdown and was gone almost three years. How do we act towards her? Should we pretend as though we don't know where she was? Should we give her a welcome home party, or should we wait until she shows more interest in us? She was always a nice

quiet lady. Her children (4 and 7) were kept by her sister, but are home with her now. I suppose this means that she is normal again. Can you advise us? We want to do the right thing. NEIGHBORS

DEAR NEIGHBORS: Most people who have been stricken with a mental illness were normal, human beings before their illnesses, and most of them return to normalcy after treatment. No mention of "where she was" is necessary. But she knows that you are aware of her three-year absence, so don't treat her as though she were a child. Call on her and tell her the neighbors want to welcome her home with a little party, and let her name the day.

DEAR ABBY: Our 15-year-old daughter is a very nice girl. We raised her right and I don't like to boast, but she is very pretty and is getting extremely popular. Our problem is: She wants us to put in a long telephone cord so she can carry the telephone all over the house and talk privately in her bedroom.

Her father said it was too expensive (this wasn't the real reason) and I told her if she had anything to say that her family couldn't hear, she should be ashamed of herself.

We have been going around about this for several months and I am interested in a solution. Our daughter has some birthday money saved and says she will pay for it herself. Should we agree?

PERPLEXED PARENTS

DEAR PERPLEXED: Teen-agers are people. All people are entitled to privacy. (Don't assume that just because she wants to talk confidentially to her friends that she has some-
